The Do's and Don'ts of offering PAYE Modernisation as a service

PAYE Modernisation FACTS:

1. Higher workload required as employers will need to report pay and statutory deductions to Revenue in respect of each employee as and when they are paid.

2. Revenue is encouraging payroll bureaus to check that their payroll software is compatible with the PAYE Modernisation requirements.

3. Accountants will see a higher demand from clients to help with their payroll and PAYE Modernisation obligations.

4. There is a small window of opportunity to gain new clients who process payroll manually.

5. PAYE Modernisation is the perfect platform to re-align your payroll services as a viable growth area of your accounting firm or payroll bureau.

6. PAYE Modernisation can play an integral part of your business growth plan by providing it as an additional chargeable service to clients.

7. PAYE Modernisation presents an opportunity for payroll bureaus to increase revenue and build strong client relationships.

brightpay
